

HERE'S the POINT!

By SPENCE HELD

Editor: Many residents of the Peninsula area feel that a community swimming pool should be established on City-owned tidelands near the Point Loma Little League field on Harbor Drive or on Shelter Island.

The last big piece of City-owned tidelands at the entrance to Shelter Island—on Byron St., across from C. J. Hendry Co.—also would be large enough to accommodate a public swimming pool.

It would be necessary to obtain a long-term lease from the Harbor Department, at a reasonable cost per year, and then build the swimming pool and bathhouse with funds raised by public donations.

A project this size requires and deserves the support of such community organizations as the Point Loma Rotary, Optimist and Kiwanis Clubs, the Point Loma Assembly, Cabrillo Club and other Portuguese organizations, and the PTA units of the various schools in the Peninsula area.

Many tidelands leases have been granted for commercial purposes. At least one motel in the area has a swimming pool on City tidelands. And a private club has two pools on tidelands.

Before all the tidelands area is leased for other purposes, it seems that there ought to be at least one community swimming pool available to Peninsula residents. (The bay has been polluted for a long time—and even if it were 100 percent pure we should have a public swimming pool with lifeguards and facilities.)

Residents who favor such a project could arouse public sentiment by writing letters to the Peninsula News.

Frontier Drive-In Theatre Opens Wed.

Opening last night of the new Frontier Drive In Theatre brought about the realization of a 16-year-old dream on the part of its owners, Sero Amusement Co., headed by William H. Oldknow.

The company, a pioneer in the Drive In Theatre industry, had planned construction of a theatre in San Diego in 1941 and the present site was purchased. Then the government condemned the

property due to the housing shortage and the Frontier Housing project arose on the site.

Construction of the new Frontier began immediately after the government returned the property last year.

The Frontier has a capacity of 1600 cars; its screen is one of the largest in the world; the snack bar is described as the largest, most modern and convenient in the county.

Peninsula Playground Schedule Announced For Easter Vacation

Four of the City playgrounds in the Peninsula area—Sunset View, Silver Gate, Loma Portal and Frontier—will be open from 9 a.m. to 5 p.m. during the public schools' Easter vacation (Monday through Friday, April 15-19), according to Lou Howell, recreation leader at Cabrillo playground.

Cabrillo and Ocean Beach playgrounds will be open from 9 a.m. to 10 p.m. during the five-day period, he said.

Easter crafts will be featured during the week at each playground. Also, as a prelude to the annual Easter Parade of Wheels in Balboa Park April 20, most local playgrounds are expected to have their own wheel parades next week according to Howell.

(Check with your playground recreation leader as to date and time.)

Entry blanks for the Balboa Park event are available at all playgrounds.

Easter Sunrise Services Planned

Easter sunrise services will be held Sunday, April 21 at 6:30 a.m. at Cabrillo National Monument atop Point Loma.

Chaplain Harris W. Howe, USN, will deliver the Easter

message. The Naval Training Center Choir will sing.

This annual Easter service is sponsored by the Kiwanis Club of Point Loma. The site affords one of the most beautiful panoramic views in the world.

On Tuesday night, April 16 at 7:30 the children and adults who attend classes and take part in activities at the O. B. Community Center will put on a program designed to show residents of Ocean Beach the daily program of events there.

PONY LEAGUE

Ocean Beach-Point Loma Pony League teams played the third triple-header of a 15-game practice schedule on Saturday, April 6.

Moose took the opener from Service Clubs, 13 to 4. Moose scored their tallies on 9 hits which included home runs by Jack Lay and Don Sada. Service Clubs had 5 hits.

In the second game, 7-Up bats came to life to defeat the Optimists. 7-Up scored 15 runs on 10 hits, two of which were home runs by Mike Dolphin and one by Mike Wilkerson. Optimists got 6 runs on 9 hits.

Mike Dolphin now leads the league in the home run category with 3 to his credit.

Spectators at the third game were treated to an exciting pitchers battle between Lions and Merchants. Merchants won by a score of 1 to 0 behind the pitching of David Cook and Larry Garcia who each gave up one hit.

Nickie Sebastiani and Charles Greathouse, pitchers for the Lions, gave up only one hit. Ronnie Bennett, who walked in the 5th, came around to score the lone run of the ball game.

WESTMINSTER CHOIR

Peninsula Anglers Qualify In Derby

Continuation of the most fabulous run of yellowtail in San Diego sportfishing history resulted in a record jump of minimum qualifying weight in the first period of the \$25,000 San Diego Yellowtail Derby this week, climbing from the 15 pound starting level to 20 pounds 6 ounces in just seven days.

Shaking the usual jinx, weekend anglers got in some of the hottest fishing licks, with the mark three days in a row to put the season's total over the 21,000 mark and at least four months ahead of the progress made last year.

Pace setters for the first derby week were: 33-0, Fred W. Thompson, Los Angeles; 28-5, Tex Hall, Los Angeles; 26-8, Louis Gaus, Carlsbad; 26-8, George McGill, Inglewood; 26-7, Richard Smith, El Cajon. Local pace setters the first week included the following from the Point Loma-Ocean Beach area: 25-4, Clark W. Johnson, Marlin Inn; 22-2, Bart Penrose, 3229 Ibsen; 21-12, Verna Bearden, Ocean Beach; 21-2, J. W. Lanston, Ocean Beach.

Spring Rose Show Nation's Largest

The nation's largest all-rose show is slated for this week-end when the San Diego Rose Society stages its 30th annual Spring Rose show in Conference Hall, Balboa Park.

Keyed to the theme, "Easter Parade of Roses," the display will offer an acre of exhibits. Exhibitors will vie for ribbon and trophy awards in nearly 100 divisions.

Show hours on Saturday are from 1 to 9 p.m. and Sunday from 10 a.m. to 6 p.m. J. Paul Gaughen is show chairman.

More than 25,000 blooms from San Diego County gardens will splash brilliant color throughout the display area.

O.B. Kiwanis Club

The Ocean Beach Kiwanis Club inducted two new members Tuesday night—Dr. George C. Glenn Jr., dentist, and D. W. (Tommy) Thompson, X-ray technician. Perfect attendance pins were presented to Lew Fleetwood, 10 years; Jim Noel, 8 years, and Joe Kennelly and Ray Perine, 3 years.

O. B. Students Take 'Plane Trip'

Sound effects, actual size diagram of the inside of an airplane and authentic background material, made an imaginary plane trip a realistic experience for members of a sixth grade class and their guests at Ocean Beach School Friday.

Written by members of the class in the form of a play, this unit culmination presented the history and advancement of aeronautics through make-believe trips to an aeronautical museum, pilots' ready room and weather station.

In addition to class study and research, the students visited Lindbergh Field and the weather bureau to observe actual operations.

Over a loud speaker, Linda Martin realistically announced plane arrivals and departures intermittently throughout the play. Garry Huss played the part of the pilot; Charles Curtis, the copilot. Entire class took part in the play.

Charles Webster, teacher, was assisted by Joseph Mazeroll.

Homer's Variety Sold To Farrells

Sale of Homer's Variety Store at 4871 Newport Ave. to William G. and Carol Farrell, of Ocean Beach, was announced this week by Homer Gravelle. The purchase price was not disclosed.

Gravelle has been in business 11 years at this store and at a prior location in the same block. He is retiring from business—he and his wife, Leona, will spend part of this year in travel, seeing the U.S.

"The Farrells are a credit to the community," he said, "and I'm sure they will do a fine job."

Women's Civic Theatre Committee Enlists Votes For Ballot Proposal

Final meeting of the Women's Civic Theatre-Music Hall Volunteer Committee was set for today at the Thursday Club. Mrs. Henry B. Clark, chairman, of 3810 Narragansett Ave., announced this would be a rallying of forces for the last few days before the April 16 election.

"It should be stressed," said Mrs. Clark, "that the proposed Civic Theatre will be located on a site selected three years ago by the Planning Commission and re-indorsed by that body recently. The site is undeveloped land which will be vastly improved by the proposed structure and landscaping, and it is centrally located. Ample parking will be available."

The 3000 seat capacity is the accepted size for live productions, Mrs. Clark pointed out, adding

that this is more than the seating in the San Francisco Opera House. Annual tax for the average home owner will average 98 cents a year over the 25 year period, she said.

"The \$3,500,000 bond issue will appear on the ballot April 16. The sum will cover construction, furnishings, landscaping, parking facilities (for 1500 cars), a 'little theatre' of 500 seats, rehearsal hall, special section in the main theatre for wheel chair patrons. Management will be under the City Administration," she stated.

Several hundred women are actively engaged in informing the public and enlisting votes for the Civic Theatre-Music Hall proposition. The campaign has been carried on without monetary backing. Information cards and inclosures have been donated.

Arguments Against Theatre Listed

The idea that everyone favors a Civic Theater in Balboa Park is not as unanimous as the proponents of the measure would like us to believe. I should like to present a few of the arguments which I am hearing on the opposition side.

Those who oppose the Civic Theater bonds, Proposition A on the ballot, generally represent four points of view.

First, there is the large group of those who want no increase of taxes to build a theater which they consider in the luxury class. I have heard comments from several people to the effect that if their taxes are increased for the building of that theater, they will never have money enough to get inside of it.

A second group opposed to the theater bonds are those who point out that our most pressing and urgent need in San Diego is for a large, multi-purpose Convention Hall. We need it badly, and it would bring in much revenue to the city. Yet this too must be financed with a bond issue.

A third group who will oppose the bond issue are those who want to see the Park kept as park—free from encroachment by special groups or interests.

There is much to be said for keeping Balboa Park for park purposes. San Diego is destined—whether we like it or not—to be an immense city. We will need every bit of green, natural park area we can save if we want to be fair to the generations yet to come.

There is yet a fourth group who will vote "No" on Proposition A because they think that another site, within the Park, is ready made and very much better from every standpoint for a Civic Theater. That is the present site of the Ford Building.

The Ford Building has never been an asset to the Park, yet it is occupying a superb location larger and easier of access than the proposed theater site on Park Blvd.

For all these reasons, many of us urge a "No" vote on the Civic Theater bond issue.

THEY'RE TALKING ABOUT

The giant-size, beautiful brochure of California Western University, put out by the Board of Trustees.

Of particular interest to this area, the university (founded in 1952) has shown tremendous growth. Recently the school embarked upon a new program of development to keep pace with the educational needs of this rapidly growing area.

The site, in our own Peninsula area, commands a spectacular, panoramic view of the Pacific Ocean from atop Point Loma, west of Catalina Blvd. It was the former grounds of the much publicized Theosophical Institute.

This university is specializing in the study of human relations, "a new concept for a new age." It is one of the pioneers in this field.

If you're new to San Diego or this area, drive out and take a looksee. If you're an old-timer, drive out, anyway. You'll be surprised at the change. Some of the old landmarks are still there, but they're going fast.

WHO'S NEW ON POINT LOMA

Local moves in recent months show more changes of address in the Peninsula area than from other districts of San Diego.

Mr. and Mrs. C. W. Chapman and their two sons moved from 4036 Bernice Dr. to their new home in the 1200 block of Bangor St. in Fleetridge. Mr. Chapman is an engineer while Mrs. Chapman teaches at Sunset View School.

Mr. and Mrs. A. Grayner and their children found a more spacious home in the 3100 block of Browning St. Their former address was on Lotus Dr.

Because they wanted an ocean view, Mr. and Mrs. D. C. Harder sold their home at 2031 Chatsworth Blvd. and bought in the 700 block of Stafford Pl.

Mr. and Mrs. P. M. Wold, who have been living at 4341 Banning St., bought a home in the 800 block of Catalina Blvd. They have a small daughter, Lynette.

It was a short move for the William Prices and their children, Tandy and Jimmy. They bought a home in the 4400 block

PLANNING AHEAD

A ten-year-old youngster came up to a San Diego teacher as she was dismissing the class at the end of the day.

"I don't think I'll be in school tomorrow," he said. "I have the mumps."

Mrs. David H. R. Pain will entertain members of the Point Loma Section of the American Association of University Women in her new Fleetridge home at 3665 Fenelon St. The date is set for Thursday, April 25, at 7:45 p.m.

The program includes a talk by Mrs. Gene LeFond, of 4505 Santa Cruz Ave., who will relate her experiences in India. She accompanied her husband when he went as a Fulbright scientist for two years.

McKinley Presents Election Platform

William R. McKinley, 3rd Dist. City Council candidate, said this week that his platform for election consists of four main points:

1. The city should cease its demand for Montgomery Field as an airport site, so that San Diego will not lose Miramar Naval Air Station, its personnel, or its supporting aircraft carriers.
2. The city should cease refusing employment to persons over 52 years of age and should create a special office to promote employment opportunities for senior citizens.
3. The city should take an active part in the fight for legislation to protect teen agers from the vice dens of Tijuana.
4. The Council should undertake a new study of the so-called Sewer Tax, with a view toward finding a more equitable means of financing a new sewage system.

McKinley is a real estate broker and a contractor. He lives with his wife and three sons at 4471 33rd St.

Here Are Helpful Hints For April Don't Waste Water In Kitchens---

Water conservation, like charity, begins at home and the county-wide Don't Waste Water Campaign has selected April as the month to encourage savings in the kitchen.

The 1957 campaign goal is to save 10 billion gallons, set as the "safe" figure to insure against the adoption of rationing of other drastic measures.

Frank E. Smith, executive secretary of the campaign, said county residents already are responding to the need for water conservation. For January and February water consumption was down 8 percent from 1956 but Smith declared that even greater savings will be necessary during the rest of the year.

The Domestic Consumer division of the campaign has outlined April's "helpful hints to housewives" for saving water in the

kitchen. The hints include:

1—Washing dishes in a pan or with a stopper in the sink can save more than 25 gallons at every meal.

2—With warm weather coming up, keep a bottle of water in the refrigerator. You'll save by not running the tap until drinking water cools.

3—Save the water you run from the hot water tap until it warms; it can be used for household plants.

4—Scrub vegetables and fruits in a bowl or pan instead of under running water.

5—If you have an automatic dishwasher, always operate it at full loads.

6—Above all, stop that leak in any kitchen faucet. A small trickle can waste up to 200 gallons a day!

Holy Week Rites Scheduled For Holy Trinity

The Rev. John R. Nicholson, rector, Holy Trinity Episcopal Church, announces a full schedule of services during Holy Week for the Ocean Beach church.

On Palm Sunday, April 14, there will be three celebrations of the Holy Eucharist, at 7:30, 9 and 11 a.m. Blessed palms will be distributed at all services. Church School will meet at the regular 9 o'clock hour.

Monday, Tuesday and Wednesday there will be two celebrations of the Holy Eucharist each day, at 6:30 and 9:30 a.m. A service of Evensong will take place Wednesday at 7:30 p.m.

Evening Eucharist Scheduled

Maundy Thursday evening at 6 p.m. a Choral Holy Eucharist will be sung by Father Nicholson assisted by the Senior Choir directed by Mrs. Edith Webster, organist-choir director. The "Watch and Pray" before the altar of repose will begin following this Eucharist, in observance of the time when Christ was in the Garden of Gethsemane. This Watch continues until 12 noon Good Friday at which time the Mass of the Pre-Sanctified Host and Meditations will recall the three hours of Christ's Crucifixion.

Holy Saturday, the day preceding Easter, in conformance with the tradition of the Episcopal church, the sacrament of Holy Baptism will be administered. The hour of this service is 4 p.m.

Easter Day the Holy Eucharist will be celebrated at 6 a.m., 8 a.m., and 11 a.m. The blessing of the Pascal Candle will also take place at the 6 a.m. mass.

Ross Sharp Cites Importance Of Mission Bay Park

Ross Sharp, attorney and candidate for city council, this week pointed out the necessity for the completion of the Mission Bay project both as a needed improvement for San Diegans and as a means of improving the economy of this area.

"San Diegans need increased recreational areas for the use of its young people and families," Sharp said. "Investments in young people and in keeping families closer together pay off in better citizens," he added.

Formerly a member of the Mayor's Committee for Mission Bay, Sharp ranks the completion of this area as one of major importance for San Diego.

"There is no area in the U.S. that offers a tourist all the advantages of San Diego," Sharp said. "It is up to us to complete our recreational area and then let the world know about it."

BETTER BUSINESS BUREAU

Better Business Bureaus throughout the country have long been noted for helping to guard the family paycheck. Fewer people are probably aware of the fact that your local Bureau also works to protect the family's health.

When quacks spring up or medical advertising makes false claims, Bureau investigators are on the job, working with police and other officials to stamp out the menace or introduce correctives.

For instance, newspapers in many parts of the country recently carried an ad by a midwest firm which offered a "miracle" drug product alleged to be a cure sold for \$4.95, or \$45 for a 20-day "complete treatment."

Those who replied received for \$4.95 a box containing six large, porous discs, together with a small quantity of antacid and laxative pills.

When specimens of these medications were submitted for analysis by the Detroit Better Business Bureau, the local board of health examined the formula carefully.

Officials reported that ingredients of the white or pink tablets contained the usual antacids, enhanced by the addition of aromatics, table salt or ginger, which authorities claimed could actually irritate rather than benefit a patient with peptic ulcer. Orange and red tablets consisted of standard laxatives. One of the ingredients, Podophyllin, a bitter purgative resin, could prove drastic if present in sufficient amounts, the report revealed.

As a result, Better Business Bureaus have requested various media to refuse advertising of this

While some advertisers would like to tell you otherwise, there are no known drugs or serums that will effectively cure a lot of well-known ailments—such as arthritis, baldness, cancer, epilepsy, influenza, kidney trouble, piles, pyorrhea, rheumatism, rupture, sinus disorders and a host of others.

In fact, some drugs are dangerous to health and life when used without proper supervision. Many remedies or devices are worthless for the purpose for which they are offered. Use of certain medicines in self-treatment have been known to permit conditions to progress so far that damage cannot be repaired.

For a helpful 16-page booklet, "Facts You Should Know About Health Cures," write to your Better Business Bureau, Spreckles Building, San Diego. Enclose a dime to help cover printing and postage costs. It may open your eyes.

JEHOVAH'S WITNESSES
SEND PROTEST TO USSR

Charging that Soviet officials may perhaps be found fighting actually against God, a strongly worded letter of protest from officials of the Watch Tower Bible & Tract Society, legal governing body of Jehovah's Witnesses, has been sent to Premier Nikolai A. Bulganin of the USSR.

Mr. Deines, presiding minister of the Ocean Beach congregation of Jehovah's Witnesses, in announcing the contents of the letter, cited the wholesale arrests and mass movements of Jehovah's Witnesses to slave labor camps in Siberia.

"For many years now," Mr. Deines quoted the letter as saying, "Jehovah's Witnesses within the Soviet Union have endured great difficulties and heavy persecution."

The letter was written to accompany a composite petition that had been adopted over a period of nine months by a total of 462,936 of Jehovah's Witnesses. It called attention to the 7,000 Jehovah's Witnesses said to be in slave camps in the Soviet Union and, requesting their release, proposed that a delegation be permitted to proceed from the Society's headquarters in Brooklyn, N.Y., to Moscow to fully acquaint the Soviet government with the true aims and purposes of Jehovah's Witnesses.

HEALTH FOR ALL

With all the tensions and worries of this Atomic Age, we are apt to forget that it has also meant great advances in medical science.

One of the by-products of atomic energy production is radioactive Carbon 14. In recent experiments, drugs used in treating tuberculosis patients were "labeled" with carbon 14 so that their behavior in the body could be studied.

With the aid of the radioactive tracer, scientists found that the drug isoniazid had a definite affinity for the infected tissue in the body. The typical tuberculous lesion, the area where the disease was destroying body tissue, accumulated and retained large quantities of the drug.

On the other hand, they found that another drug used for TB treatment, PAS, readily penetrated the lesion, but left again just as easily. No concentration of the drug was retained in the infected organs.

This scientific research may seem a little remote to your every day life, but it's all part of the effort to find out how best

to cure the TB patient. Doctors have used these drugs for some years, knowing that they help cure TB patients, also knowing that patients vary in their response to the different drugs and combinations of drugs.

Research such as this helps them know why and how they work and may therefore aid in planning specific treatment for patients in various stages of the disease.

Modern treatment of tuberculosis has removed much of the terrible curtain of fear that has hung over this disease for centuries. In the old days, people used to say they'd "rather not know they had TB." They felt it was an automatic sentence of death.

Today, TB can be cured. It's still a lot more serious than the common cold, but there's no reason to hide from the facts. Your doctor will advise you how often you should have a chest X-ray to make sure you don't have tuberculosis.

(This column is sponsored, in the interest of better health, by the San Diego County Tuberculosis and Health Association.)

God's Great Mercy, Hosea Tells Us, Is Our Best Hope

PROPHETS who denounce

social injustice, and warn of the

sure judgment of God against

evil men, are necessary. Amos

was such a prophet. But there is

another aspect of truth — the

mercy of God who is full of kind-

ness and forgiveness toward those

who repent and seek His ways.

In the prophecies of Hosea, the

note of appeal is uppermost. His

message is God's forgiving love.

It concerns the God whose justice

rebukes sin but whose love re-

stores and heals.

Like Amos, Hosea represents

God as desiring goodness. The

knowledge of Him is more than

burnt offerings. Even in the for-

mal observance of religion, with-

out the reality of good charac-

ters and deeds, Hosea saw the

backsliding of the people whom

God had chosen.

But he says that God will heal

this fault. He loves them freely

and His yearning for them to

return is greater than His anger.

This is a high point in the

progress of Old Testament teach-

ing concerning God. From the

idea of vengeance—"an eye for

an eye and a tooth for a tooth"—

we are progressing toward the

idea that will find its full expres-

sion in the New Testament—that

only through good can evil really

be overcome and that only love

and grace can bring salvation.

As the way of selfishness and

sin is the way of folly, so the

way of return to God, the ac-

ceptance of His mercy and the

dependence on His power is the

way of wisdom.

"Who is wise," asked Hosea,

"that he may understand these

things? Prudent, that he may

know them? For the ways of Je-

hovah are right and the just shall

walk in them; but transgressors

shall fall therein."

May God's call of mercy prove

stronger than His judgments to

all of our day who have gone the

way of folly.

CAMELIA SOCIETY

TO MEET FRIDAY

Alton Parker of Temple City,

president of the Pacific Camellia

Society, will address the San

Diego Camellia Society, Friday

evening, April 12.

The public is invited to the

meeting, which begins at 7:30 in

the Floral Building in Balboa

Park. Parker will describe his re-

cent trip through the camellia

country in the South and the na-

tional show of the American Cam-

ellia Society at Macon, Georgia.

CUB PACK 28

Four Cub Scouts were presented Webelos awards at a recent meeting of Pack 28, it was announced. The boys are Mike Baker, William Cushway, Richard Ward and Victor Lockwood.

Other awards were presented to: Dennis Panek, Paul Knox, Thomas Lockwood, Leslie Lyman, Stanley Needham, Gary Vrooman, David Fisher, Chris Fisher, Richard Lockwood, and Mike Isom.

Also, Richard Backman, Thomas Backman, James Contreras, Eddie Biggs and Richard Lewis, Richard Lockwood and Richard Janeaux received two-year pins. One-year pins were presented to Ralph Smiley and Bill Truchan.

Five new members were welcomed in the Pack: Kevin Day, Michael Grant, Timothy Needham, Chris Baldwin and Stacy Rosco.

But he says that God will heal

return is greater than His anger.

Life Beyond Death Evangelist's Topic

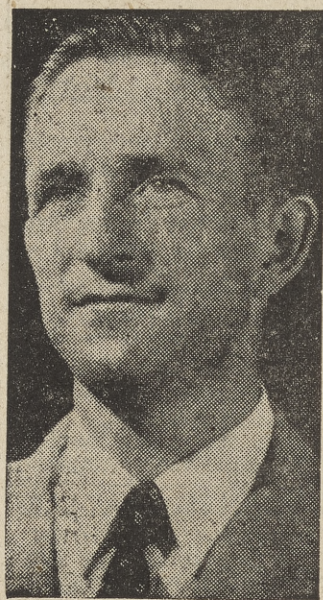

"Life beyond death," will be the fitting title at this season of the year for Evangelist R. E. Delafield Saturday at 8 p.m. in the Masonic Temple, 1711 Sunset Cliffs Blvd.

He will give scriptural evidence to the question, "Will we know one another in heaven?"

"In fact," says Delafield, "We shall present four actual ways the Bible presents how we shall know one another there."

Delafield's Saturday evening lecture will be preceded at 7:30 p.m. by a direct remote control radio broadcast from the Temple featuring Glenn H. Curtis, D.D.S., instructor at the School of Dentistry, College of Medical Evangelists, Loma Linda, Calif.

Last Saturday night Evangelist Delafield told his audience, "The fate of Europe and the Middle East is forever settled by two texts of holy scripture: 'They shall not cleave one to another... (Daniel 2:43), and 'He gathered them together into a place called in the Hebrew tongue,

R. E. DELAFIELD

Armageddon,' (Revelation 16:16). 'The nations of Europe have never been united since the

break-up of the Roman empire in 476 A.D.," said Delafield, "and despite the mingling or attempted uniting by marriage of the crowned heads of Europe at various times in the past, all such attempts by that means, or by

war and conquest have signally failed."

The meetings, on Saturday and Sunday evenings only, are for everyone regardless of faith or affiliation, and the public is cordially invited.
